

Quick Start Guide:

Setting up your Wi-Fi and App

- 1 Download the app. You can search either the Apple App Store or Google Play Store for: 'PMT SmartHome', then install it on your mobile device.

- 2 Select "SIGN UP" towards the bottom of the screen.

The login screen features the PMT SmartHome logo and a house icon. It includes input fields for Email Address, Password, and Location (set to USA). There is a 'Forgot Password?' link and a 'SUBMIT' button at the bottom. A link for 'Don't have an account? SIGN UP' is at the very bottom.

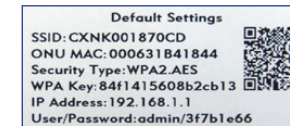

- 3 Enter your personal information. The password you enter here will be used to access the app.

The registration screen prompts the user to create an account. It includes input fields for First Name, Last Name, Email Address, and App Login Password. A 'SUBMIT' button is at the bottom.

- 4 With your system plugged in and connected select "Yes" to continue.

The setup screen asks if the new system is plugged in and connected. It features a 'YES' button and a 'Not plugged in? Not sure?' link.

- 5 Tap the QR code that appears within the app. (You will be asked to allow the app to access your camera.) Point your camera at the QR Code found on the bottom of your router, or on the sticker that came in your box (example shown below).
- Select OK. After you select "Submit", you may be asked to enter your account number.

The router configuration screen prompts the user to scan a QR code from the router. It includes input fields for MAC Address and Serial Number, and a 'SUBMIT' button.

- 6 **Note:** If your system is already operating with Wi-Fi, tap the "Click here to skip" text. Otherwise, complete these steps to set-up your Wi-Fi.
- Name your network and create a password.
- The Router Name will be used throughout the app.
 - The Network Name (SSID) is what you will use as your wireless connection name.
 - Select a password for your wireless network, if you do not want to change it on all the devices in your home, use your existing wireless SSID and Password from your current router.

The network details screen prompts the user to name the network and create a password. It includes input fields for Router Name, Network Name (SSID), Wi-Fi Password, and Confirm Password. A 'SUBMIT' button is at the bottom.

Getting started with the App

The App allows you to manage your home or small business Wi-Fi network. You can self-install and be managing your home or business within a few minutes. Download the app and start managing your home network today!
